"It has to be fun to skate"

DSU wishes clearly to signal that figure skating is fun at all ages and for the whole family!

FunSkate Activities Target Group

Beginners, club figure skating school skaters, advanced skaters and experienced skaters with an interest in participating in structured figure skating activities, as an introduction to the sport, but with a targeted participation.

FunSkate Activities Working Background

Danish figure skating has been through a development process in the past five years. This has posed many challenges for Union, skaters, trainers and clubs.

The FunSkate Committee has made it possible, through the creation of levels for skating school skaters, to create a more thorough, goal oriented and structured working environment for the skating schools in the clubs.

After several years of hard work and constant development, it has been possible to incorporate FunSkate in the daily training schedule in most Danish clubs. FunSkate is now also an independent committee under the Danish Skating Union (hereafter DSU).

Working Process

The FunSkate Committee is 1 of 5 DSU committees and is tasked with:

- Structuring and planning of all FunSkate activities
- Conducting FunSkate activities in accordance with the FunSkate Program
- Creating a yearly revision of the FunSkate Program in cooperation with FunSkate responsables from all clubs
- In charge of all FunSkate related club communication
- Yearly club visits (at a minimum one visit each season per club
 - It is the clubs responsibility to contact FunSkate, if a visit is desired.

FunSkate Committee Members

- Astrid Uttenreitter (Chairman)
- Camilla Lyngsø
- Per Andreas (IT Responsible)
- Desiree Skov Lauridsen

Group Descriptions

FunSkate Element

Element content is known from daily practice. The skaters are divided into groups, based on skills and age¹. The group content is based on the Canadian Skate Club Test System.

FunSkate Free*

The skater is on the ice alone and will skate an individual program with music. Identical (shared) programs and music is allowed, but the skaters are also allowed individual music. Skaters in Free 1 and Adult groups can choose either to: 1) have a Dance program, which is defined by the skater not doing any jumps and the program contains of one dance-sequence and a twizzle as we know it from ice-dancing, or 2) a singles program, which is defined by containing jump-elements. Skaters in the remaining groups must participate with a singles program.

In the free-disciplin it's possible to compete in the following groups:

- Solo- and Dance
- Master
- Adult and Dance

FunSkate Dance*

~~The skater is on the ice alone and will perform an individual program with music. Identical (shared) programs and music is allowed, but the skaters are also allowed individual music.~~

~~The main characteristic of FunSkate Dance is that no jumps are allowed and that the program must contain one sequence of dance, as known from Ice Dance.~~

FunSkate Show*

The skaters are on the ice in groups of minimum 6 skaters per show.

There are few limitations in this group, the focus is on the *show*.

* All music must be uploaded to Google Drive via the link provided by DSU, which is the same procedure for all competition music in DSU.
